Subscribers, whose papers were discontinued when the mail facilities were cut off in Southern Kentucky and Tennessee, can obtain them now by giving to notice where they received them and where they now wish them forwarded for the time paid for.

For Judge of Court of Appeals,
R. K. WILLIAMS,
OF GRAVES COUNTY.

District composed of Allen, Butler, Breckinridge, Ballard, Calloway, Caldwell, Crittenden, Christian, Devine, Edmonson, Fulton, Graves, Grayson, Hancock, Hickman, Henderson, Hopkins, Livingston, Lyon, Logan, Marshall, McCracken, Muhlenberg, McLean, Ohio, Simpson, Todd, Trigg, Union, Warren, and Webster.

The object of the recent raids, both in Tennessee and Kentucky, is apparently not for the purpose of retaining any of the points seized, but merely to capture stores, to plunder citizens, and to create alarm. It serves to show defects in our plans of operations; and among other deficiencies a serious want of cavalry. It enlightens us to the fact that guerrillaism is just what it has always been shown to be by history—the acts of common robbers, relieved now and then by acts of unexpected generosity. The most of their plundering, as far as we can learn, has been of corporate companies, whom they seem to think have no right to exist, although under a good Union man like Uncle Ben Spalding can be plundered they proceed at once to do it. This discrimination between individuals and corporations is not to be ascribed to any particular regard for individual property, since it is little difference whether you rob a man of his share in the profits of a company or of some other property, but because the largest sums—indeed, all the money nearly, is to be found in the hands of public or private bankers. These acts should not surprise any one, and do not. They are the fruits of illegitimate war and the natural offspring of rebellion. We can expect nothing better from bandits, and could scarcely have expected anything as good. Fortunately they have to be continually on the wing, which prevents a great deal of damage, since it does not leave them time to inquire into Union and Secession, and even thus recognize the fact that they must not unnecessarily rob their own friends, many of whom have acted as spies for them ever since the war began.

Strange as it may sound, there are respectable(?) men who pretend to defend or justify these outbreaks, and who have smooth names for Morgan's conduct, and even praise. Although he has killed at least one or two citizens, burned private property as well as public, and stolen money, horses and vehicles, yet they argue, because he didn't burn all the houses, steal all the private property and extirpate private citizens, he must be rather a noble gentleman. We suppose he was checked some by the thought that if he did it would be dangerous to him, as arousing whole communities against him; and next, if he stole the property, he couldn't dispose of it, nor carry it away. His acts, as far as known, savor more of the bandit than the soldier, although he may not have been as violent as the majority of guerrillas are. He is a robber and a plunderer, and his hand is robbers and plunderers. No other name can be given to men who scrupulously avoid armed soldiers, and only war upon private citizens. Their conduct is a disgrace to any cause, even to that of unjustifiable rebellion, and those who defend or justify them are equally as bad at heart, although they lack the courage to do so, and take the small risk they would be in as one of the band.

We sincerely hope that Morgan will be overtaken and routed. If anything like an equal force attacks him we know he will be defeated; but no such force has as yet been able to get near him, but once, and then they routed him. It is the policy of guerrillas never to fight. They are intended only to rob and run. They are got up entirely on the skeddadle principle.

We learn that Gen. Ward has mounted some 1800 men in the hope that they may be able to overtake the redoubtable Morgan. Perhaps by the time this has been printed they have succeeded, although we are strongly of the opinion that Morgan will be too rapid in his retreats to be overtaken. There should be at least three or four times as much cavalry as we have now in this State. They should be strong enough to be able to meet with Morgan wherever he might attack or to follow him up to his den. As it is, they are so few, and necessarily so scattered, that they are worse than useless.

APPELLATE JUDGE IN THE FOURTH DISTRICT.—It is known that Judge Williams was unanimously nominated as the Union candidate for the position of Appellate Judge by the Union Convention that met in Henderson, on the first day of May. He soon after published a long list of appointments, and then another; in fact, notwithstanding he had no opposition, he has made a laborious canvass, having visited every county in the district not comprised in his present list, which is now being filled. We have now come to within three weeks of the election. The Union men all over the State have been apprised, for some time, that the Knights of the Golden Circle have their organization extending throughout the State, and that their programme has been, not to bring out their candidates until just before the election, then to profess no party affiliations, but to base their claim to office on merit and qualification; to avoid public discussion as much as possible, and by this secret move secure as many of the offices as practicable in the hands of those men, who have once betrayed the State, and who will do so again, when opportunity shall favor.

At this late date Hiram McElroy is a candidate, after doing all he could in the past to favor the rebellion and betray the State; but with his announcement there comes no list of appointments, nor is he, so far, availing himself of Judge Williams' present appointments. All these things clearly show that his being a candidate

at this time is in accordance with the programme of the K. G. C's. We are assured that they desire much to keep up their organization in that disaffected part of the State, the First District, and have hopes of succeeding with many of their candidates. But the Union men are wide awake. The August election will show by second evidence who are loyal and disloyal. These poll-books are records to be preserved, and not destroyed, as the rebels destroyed theirs. It will enable us to a great extent to ascertain who belong to this most infamous conspiracy, the K. G. C's, that it may be broken up and crushed out. We say to the Union men, be active; go to the polls and see that all your loyal neighbors go; give your votes to no disloyal candidate; do not withhold it from any loyal candidate, and any man who is not now actively and openly espousing the cause of the Federal Government and of Kentucky, and openly opposed to the rebellion, is disloyal.

Let the military authorities be duly on duty, and see that no outrageous traitor is permitted to worm himself into a position where he can do the State an immensity of harm when the favorable moment for her betrayal has arrived.

"Foreign borders," is an expression we often see applied to the Union army by the rebels. And yet their first effort was to enlist the powers of Europe to engage in the quarrel in their behalf. They have been persistent in their purpose. There is nothing they have so much at heart, and there is nothing upon which they so much build their hopes. Then they cry foreign borders! Still they are lost to shame, look white men in the face, and rail at foreign borders! Satan is not often outdone in simulation and hypocrisy. To rail at a crime of which one is himself guilty, is not an uncommon expedient of the accomplished hypocrite; but many Secesh repeat this language, having learned it from their leaders. Next time they feel like indulging in the luxury, let them look in the glass and see the allies of foreign borders in full bloom; men eager to introduce foreign troops to help humiliate and destroy their country.

We understand that G. C. Drane, Esq., of Newcastle, is a candidate for the Union nomination for Judge of the Circuit Court in that District. Mr. Rankin having declined the race. The nomination will be made at Owen next Saturday, by a committee. We don't know what other candidates there may be; but Mr. Drane will do credit to the position, and be quite as acceptable as any one we know of.

The confiscation bill passed in spite of the votes of all the Democrats in Congress from the free States.

The Commercial, of Tuesday, says quite a sensation was created day before yesterday afternoon among the rebel sympathizers in Covington, by the movements of Captain James L. Foley, Provost Marshal of that city, backed by a guard of soldiers from the Newport Garrison. It has been notorious for some months past, that certain houses on Madison and Russell streets were the resort of rebel sympathizers, who congregated daily and nightly, for the purpose of hob-nobbing and ventilating treason. The Provost Marshal very properly determined to break up the business, and accordingly waited on a number of them yesterday. They were informed that the regular assembling of well-known Secessionists in their houses had been going on long enough, and that if a stop was not put to it forthwith, they would have to abide the consequences.

The "Last Ditch" Duo.—News received from Mobile informs us that that ditch has been dug. It remains to be seen whether the rebels are to die in it. Here is an extract from a Mobile letter:

The great ditch the Mobilians have been for months in digging is now completed, and extends from the water's edge entirely around the city. The inner bank is defended by breastworks and batteries, and the position is considered by the rebels unsailable. If the Federal gunboats succeeded, however, in passing the harbor batteries and forts, the rebel army may either be compelled to surrender, or driven in a body into the ditch they have dug, and from which they will find it difficult to escape. It would contain a very large army.

On Friday evening, Mr. Felix DeLang, a son of Dr. F. DeLang, of Vincennes, Indiana, was accidentally shot with a pistol in the hands of a younger brother. The ball entered Mr. D's left breast, just above the nipple, inflicting a severe but not dangerous wound. It was altogether the result of an accident from carelessly handling the pistol, and should serve as a warning to all who handle fire-arms. We are glad to learn that young DeLang is recovering.

Ladies engaged in "canning" fruit must exercise caution in handling the cans filled with scalding hot fruit. The Akron Beacon says that as Mrs. Horace May was removing a can of strawberries, which she had just sealed up, from the stove to the table, an explosion took place, blowing off the lid of the can, and quite severely scalding the hands and wrists of Mrs. May with the hot fruit.

The Huntsville Reville says that Gen. Buell should certainly feel proud of his fine looking body guard. Their appearance, when mounted, reminds one of the gay lancers of old, and at Shiloh their usefulness was clearly developed.

CONTRACTS AWARDED.—Lieutenant W. D. Earnest, A. A. M., awarded the contracts to Mr. J. Spears, of St. Louis, for 250,000 bushels oats at 47 1/2 cents per bushel, and 15,000 bushels corn at 47 1/2 cents per bushel.

PERSONAL.—Major General Selig and staff; General Welch, U. S. Vols.; C. A. Walborn, J. D. Cameron, John Wyatt, and Wm. Irving, Pa., were at Willards', in Washington City, on the 9th.

The farm of Mr. Martin Hutchison, of Bourbon county, containing 470 acres, was sold on Monday last for \$94 per acre cash. The Northern Bank was the purchaser.

The Directors of the Central Bank at Danville have declared a dividend of 8 per cent on the capital stock for the last six months.

The Richmond papers now only claim 4,500 prisoners taken in the seven days' fighting.

From the 26th Kentucky Regiment.

CAMP UNION, NEAR GALLATIN, TENN., July 12th, 1862.

Editors Democrat.—GENTLEMEN: There has scarcely been a regiment of volunteers raised in Kentucky which has not had its trumpet to sound the fame of its officers and men; the former especially.

Perhaps less has been said, and, therefore, less is known of the 26th, commanded by Col. W. P. Boone, than any, from the fact that they have desired to let deeds rather than words proclaim their worth. True, their deeds have not called for their own warrant; a very loud blast; yet, what they have undertaken they have performed most effectually.

They have guarded all the railroad bridges on the L. & N. railroad, and its branches; have watched the turnpike bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; and this they have done until their familiarity with them will enable them to enumerate the spans, give the number of the bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; and this they have done until their familiarity with them will enable them to enumerate the spans, give the number of the bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; and this they have done until their familiarity with them will enable them to enumerate the spans, give the number of the bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; and this they have done until their familiarity with them will enable them to enumerate the spans, give the number of the bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; and this they have done until their familiarity with them will enable them to enumerate the spans, give the number of the bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; and this they have done until their familiarity with them will enable them to enumerate the spans, give the number of the bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; and this they have done until their familiarity with them will enable them to enumerate the spans, give the number of the bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; and this they have done until their familiarity with them will enable them to enumerate the spans, give the number of the bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; and this they have done until their familiarity with them will enable them to enumerate the spans, give the number of the bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; and this they have done until their familiarity with them will enable them to enumerate the spans, give the number of the bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; and this they have done until their familiarity with them will enable them to enumerate the spans, give the number of the bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; and this they have done until their familiarity with them will enable them to enumerate the spans, give the number of the bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; and this they have done until their familiarity with them will enable them to enumerate the spans, give the number of the bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; and this they have done until their familiarity with them will enable them to enumerate the spans, give the number of the bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; and this they have done until their familiarity with them will enable them to enumerate the spans, give the number of the bridges in the same vicinity, when the personal interest of citizens ought to have induced them to relieve soldiers of the task; FINANCIAL AND...

FINANCE AND TRADE
OFFICE OF THE LOUISVILLE DEMOCRAT
Wednesday Evening, July 10, 1890.
We have no changes to note to-day, and quotations
as yesterday, at 113 buying, 118 selling. Silver
buying; 100@110 selling. Demand Notes 107
buying; not much doing. Eastern Exchange
1/2 cent. discount buying, par selling. General
is dull, with the following transactions:
FLOUR AND GRAIN—No sales. We quote Flour
00@94 75, and Wheat at 75@80c.
GROCERIES—Sales of 35 hhds Sugar at 33 1/2c
highest. 100 lbs. Sugar at 10c.

[illegible]

The amount of specie in the United States is
 than is generally supposed; certainly not less than
 \$200,000,000 annually, nearly equal to the
 exported, and would barely be the same sum cal-
 culated in Europe as there was last year, will be
 enough to furnish, and even overabundantly
 furnish, the wants of the country for all the
 precious metals. The total circulation of bank
 notes in the United States, January, 1857, was \$224,000,000,
 was reduced to \$165,000,000 by December, same
 year. There was some expansion in the following
 year, but it was not great. The specie in the
 vaults of the banks, and in the hands of the public
 (when we were a united people), the paper cur-
 rency as above stated, and specie \$200,000,000—
 in coin \$1 of Bank Paper. In 1853 the Bank
 of the United States had \$110,000,000, and specie less
 than \$60,000.

From these figures all can readily see how much
 gold Pan, and how little common sense has had
 with the advance of gold, how really causes the
 depreciation of the currency.

We refer to Treasury notes only to remark we
 consider them a safe currency beyond peradventure
 it is the duty of our Banks and Bankers to
 support any attempt to depreciate them, or to de-
 preciate them in favor of Kentucky Bank Notes.
 (The latter are good, we know, for our Bank
 pay bill-holders, even were they to lose, all the
 receivables, but certainly no one will see the ne-
 cessity of depreciating them in favor of the
 United States, pledged to the redemption of
 Bonds.

We are advised that a certain patriotic Bank
 of Kentucky is offering a premium on Kentucky Bank
 new issue Treasury Notes from 1853 to 1866
 too much on the intelligence of his constituents
 we may give him a gratuitous puff.

The net exports of Specie from 1853 to 1856 have
 been as follows:—

1853 to '54.	\$14,000,000
1854 to '55.	\$14,000,000
1855 to '56.	\$14,000,000

 DEBTORS TO THE ESTATE OF JOHN H. GRIFFITH,

British Protest Against Mediation in America.

It is well that the plan of a joint mediation between the American belligerents...

Even, however, if an early peace were intrinsically possible, an English offer of mediation would have involved serious dangers.
